

General Government

The General Government Section includes departments, commissions and offices responsible for oversight of distinct policy areas, such as ensuring peace officer competence, reasonable public utility rates, food and agricultural issues, and services to veterans that are not easily consolidated into other oversight areas. Additionally, this Section includes issues that are statewide in nature such as lease/revenue issues, bonds, and local government issues.

8120 Commission on Peace Officer Standards and Training

The Commission on Peace Officer Standards and Training (POST) is responsible for raising the competence level of law enforcement officers in California by establishing minimum selection and training standards, improving management practices, and providing financial assistance to local agencies relating to the training of law enforcement officers. POST promotes training to improve quality, integrity, accountability, and cooperation; encourages new ideas; explores and uses appropriate technologies; and delivers relevant, client-based programs and services.

PROGRAM DESCRIPTIONS

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

8120 Commission on Peace Officer Standards and Training - Continued

6500 - STANDARDS

The Standards Program establishes job-related selection and training standards for peace officers and dispatchers. It also provides management consultation to local law enforcement agencies. Activities include development of examinations and counseling local law enforcement agencies on ways to improve management practices.

The Standards Program conducts applied research in the areas of peace officer selection and training, operational procedures and program evaluation to meet statutory requirements and to provide management guidance to local law enforcement agencies. It also facilitates the development and implementation of new programs for local agencies by serving as a clearinghouse of successful program information. Finally, it conducts accreditation and peace officer feasibility studies.

6505 - TRAINING

The Training Program increases the competence of law enforcement personnel by developing and certifying courses that meet identified training needs. This activity requires scheduling and quality control of such courses and assisting law enforcement agencies in presenting necessary training and career development programs to their officers. The Commission assesses training on a continuing basis to ensure that evolving training needs are met. The curricula cover a wide variety of topics necessary to satisfy statutory and regulatory mandates, maintain competence in police work, and address the training needs of law enforcement agency personnel. Curricula content is updated regularly. The Training Program also presents advanced training for law enforcement supervisors and executives through its Command College and the Supervisory Leadership Institute, and for trainers through the Basic Academy Instructor Certificate Program and the Instructor Development Institute. Other specialty programs include the Institute of Criminal Investigation.

Job-related selection and training standards for peace officers and dispatchers, established by the Standards Program, are enforced through inspections of local agencies receiving state aid to ensure they are adhering to minimum state standards.

6510 - PEACE OFFICER TRAINING

The Peace Officer Training Program provides financial assistance to participating jurisdictions for instructional costs associated with selected training courses. Funding is also provided for the cost of student travel and per diem expenses associated with training presentations to enable line officers to receive in-service training in areas of critical need. To encourage and assist local law enforcement agencies to meet and maintain minimum standards in the selection and training of law enforcement officers, the Commission provides financial assistance to all 58 counties, approximately 346 cities, and numerous specialized districts and local agencies which have agreed to meet the Commission's standards.

6515 - POST ADMINISTRATION

The objective of the California Commission on Peace Officer Standards and Training is to be the leading organization in establishing professional standards, assuring top-quality training, and providing effective services to develop and support California law enforcement personnel. California POST utilizes the following eight bureaus to ensure uniform standards and compliance are applied to over 600 law enforcement agencies and 40 police academies statewide: Basic Training; Management Counseling and Projects; Strategic Communications and Research; Learning Technology Resources; Training Program Services; Training Delivery and Compliance; Computer Services; and Administrative Services.

PROGRAM DESCRIPTIONS

6530 - STATE PUBLIC DEFENDER

The objective of the Office of the State Public Defender, upon assignment of cases exclusively from the California Supreme Court, is to provide legal services in capital appeals to persons who do not have the financial means to employ private counsel. The Office of the State Public Defender is also mandated to provide assistance and training to public defender offices, appointed private counsel, and counsel appointed to represent indigent juveniles, and to engage in related efforts for the purpose of improving indigent defense. The State Public Defender is headquartered in Oakland, and has a regional office in Sacramento.

8260 California Arts Council

The California Arts Council (Council) consists of eleven members, nine appointed by the Governor and one each appointed by the President pro Tempore of the Senate and the Speaker of the Assembly. The Council establishes general policy and approves program allocations.

The Council recognizes that the Arts are essential for the cultural, educational, social and economic development of California. The Council seeks to further its mandates and services to the public through the development of partnerships with the public and private sectors and by providing support to the state's non-profit arts and cultural community, which are broad-based and extended across the state from its largest metropolitan areas to its most rural areas.

The Council is statutorily required to:

- Encourage artistic awareness, participation, and expression among the citizens of California.
- Help independent local groups develop their own arts programs.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

8260 California Arts Council - Continued

- Promote the employment of artists and those skilled in crafts in both the public and private sectors.
- Provide for the exhibition of art works in public buildings throughout California.
- Enlist the aid of all state agencies in the task of ensuring the fullest expression of our artistic potential.

MAJOR PROGRAM CHANGES

- **California Creative Corps Pilot Program**—The Budget includes \$60 million one-time General Fund in 2021-22, to be spent over three years, to implement the California Creative Corps Pilot Program. This program will support artists and local art organizations with a focus on art campaigns that bring awareness to stopping the spread of COVID-19, water and energy conservation, emergency preparedness, response and recovery, civic engagement, and social justice. The Arts Council will provide grants in every county and prioritize grants in zip codes in the lowest quartile of the California Healthy Places Index.
- **Creative Youth Development Grant Programs**—The Budget includes \$40 million one-time General Fund in 2021-22, to be spent over three years, to support the Arts Council's existing Creative Youth Development programs. The Arts Council will use partnerships between community-based organizations, educators, and local artists to expand participation in these programs statewide.

8385 California Citizens Compensation Commission

The California Citizens Compensation Commission is responsible for setting the salaries and benefits for the Governor, Lieutenant Governor, State Legislators, Attorney General, Secretary of State, Controller, Treasurer, Superintendent of Public Instruction, Insurance Commissioner, and Board of Equalization members.

The seven-member Commission meets annually, no later than June 30, to determine if any changes should be made to the salaries and benefits of the state's elected officials. The decisions of the Commission become effective the first Monday in December following the annual meeting.

The members of the Commission are appointed by the Governor. Three members represent the public, two members represent the business community, and two members represent labor organizations. Each member serves a six-year term and the terms are staggered.

The Commission's budget provides for travel expenses and stipends for the annual meeting. Department of Human Resources staff provide administrative support to the Commission using its existing resources.

8420 State Compensation Insurance Fund

State Compensation Insurance Fund (State Fund) is a public enterprise fund established through legislation that was originally enacted in 1913. State Fund is governed by a board of directors with authority comparable to that of the governing body of a private insurance carrier. State Fund has its own separate budget process that is presented to its board of directors for approval.

State Fund's purpose is to provide fairly priced workers' compensation insurance, make California workplaces safe, restore injured workers, and operate as the continuously available market for workers' compensation insurance for employers located in California. Pursuant to the Insurance Code, State Fund is to be self-supporting with revenues from premiums on policies written and from investment income. State Fund does not receive any financial support from the State of California, and the state is not liable for any obligations of State Fund. Almost all of State Fund's employees are hired through the California civil service process and are actually employees of the state.

State Fund is considered a related organization to the State of California because State Fund was created by the state and because the Governor appoints a voting majority of State Fund's board of directors. However, the State of California is not financially liable or responsible for the operations or solvency of State Fund.

Most of the state agencies and departments of the State of California are legally uninsured for workers' compensation coverage and benefits for injured employees. Separate from its issuance of workers' compensation insurance policies to private employers, State Fund has been engaged by the California Department of Human Resources to provide workers' compensation claims administration services for these legally uninsured departments, agencies, boards, commissions, and other subdivisions of the State of California under a Master Services Agreement. Under this agreement, the state provides a deposit out of which State Fund pays compensation benefits to injured state workers and medical benefits to health providers, and State Fund is reimbursed by state agencies for benefit amounts paid plus a service fee equal to the cost of these services.

For informational purposes only, the table further below provides summary data on actual and estimated workers' compensation claims costs paid by state agencies. All workers' compensation costs are included in the individual budgets of the responsible state agencies. Costs also include administrative charges under the Master Services Agreement.

PROGRAM DESCRIPTIONS

6560 - WORKERS' COMPENSATION BENEFITS

Through this program, State Fund provides workers' compensation benefit payments to covered employees who are injured or become ill during the course of, or due to, employment. This program does not include the cost of benefits for State of California employees. Refer to the Workers' Compensation Benefits for State Workers for the costs in accordance with the Master Services Agreement.

6565 - WORKERS' COMPENSATION PROGRAM ADMINISTRATION

Through this program, State Fund writes insurance policies for California employers, processes and adjusts workers' compensation claims, and provides loss-control training programs to insured employers.

8570 Department of Food and Agriculture

The California Department of Food and Agriculture serves the citizens of California by promoting and protecting a safe, healthy food supply; and enhancing local and global agricultural trade, through efficient management, innovation, and sound science, with a commitment to environmental stewardship.

The goals of the California Department of Food and Agriculture are to:

- Promote and protect the diverse local and global marketability of the California agricultural brand, which represents superior quality, value, and safety.
- Optimize fiscal resources through collaboration, innovation, and process improvements.
- Connect rural and urban communities by supporting and participating in educational programs that emphasize a mutual appreciation of the value of diverse food and agricultural production systems.
- Improve regulatory efficiency through proactive coordination with stakeholders.
- Invest in employee development and succession planning efforts.

Because the California Department of Food and Agriculture's programs drive a need for infrastructure investment, the Department has a capital outlay program to support this need. For the specifics on the Department's capital outlay program see "Infrastructure Overview."

MAJOR PROGRAM CHANGES

- Fairground and Community Resilience Centers—The Budget includes \$150 million General Fund one-time to support the development and enhancement of community resilience centers. This funding is available to improve both local fairground and other community facilities to enhance the state's emergency preparedness capabilities, particularly in response to climate change.
- Transfer Cannabis Resources to the Department of Cannabis Control—The Budget includes a shift of \$64.1 million Cannabis Control Fund and 155 positions to the new Department of Cannabis Control.
- Fairgrounds Operational Support—The Budget includes \$50 million General Fund to continue supporting fairground operational costs while the state continues to evaluate its relationship with fairs.
- State Water Efficiency and Enhancement Program Grants—The Budget includes \$40 million General Fund in 2021-22, for

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

8570 Department of Food and Agriculture - Continued

grants that support agricultural water efficiency improvements, with a focus on depleted groundwater basins.

- Insect DNA Barcode Library—The Budget includes \$11.5 million General Fund one-time to establish an Insect DNA Barcode Library. This funding will support barcoding and preserving existing specimens, securing new specimens from priority locations such as the Central Valley, expanding opportunities via professional and informal training, and delivering data to support the state's biodiversity actions.
- Produce Safety Program Continuation Funding—The Budget includes \$8.7 million Federal Trust Fund to develop a more robust inspection program for the enforcement of the Food Safety Modernization Act, Produce Safety Rule in California.
- Bee Safe Program—The Budget includes \$2.1 million General Fund one-time to continue operating a statewide Bee Safe Program to promote and protect a safe, healthy food supply through the protection of bees.
- Pet Lover's Specialized License Plate Grant Program (SB 673)—The Budget includes \$650,000 Special License Plate Fund for three years to continue the Pet Lover's Specialized License Plate Program, which provides grants to qualifying spay and neuter facilities that result in low-cost or no-cost animal sterilization services.
- Agricultural and Rural Economic Advisor—The Budget includes \$199,000 General Fund and one permanent position to establish an agricultural and rural economic advisor to assist with economic recovery in the agricultural sector.
- Healthy Soils Program—The Budget includes \$50 million one-time General Fund to provide grants for on-farm conservation management practices designed to sequester carbon within the soil.
- Integrated Pest Management (IPM) Programs—The Budget includes \$9.8 million one-time General Fund in 2021-22 and \$7.8 million in 2022-23, for grants for IPM research and education. This includes funding for the Biologically Integrated Farming Systems grant program, proactive IPM and Interregional Research Project No. 4 research, and cooperative agreements with California State University Agricultural Research Institute and the University of California Agriculture and Natural Resources to expand research, education, and extension capacity for IPM practices.
- Technical Assistance Program for Underserved Farmers—The Budget includes \$5.4 million one-time General Fund to support technical assistance providers and small, mid-sized, and underserved farmers. These resources help farmers with business planning, navigating regulatory compliance, and accessing additional state and federal funds.

PROGRAM DESCRIPTIONS

6570 - AGRICULTURAL PLANT AND ANIMAL HEALTH; PEST PREVENTION; FOOD SAFETY SERVICES

The objective of this program is to prevent the introduction and establishment of serious plant and animal pests and diseases to California, promote judicious antimicrobial use and stewardship and protect the safety of California's dairy, eggs and meat products that are exempt from federal inspection. In particular, the program is focused on pests and diseases that can: (1) be transmitted to humans, (2) inflict catastrophic financial loss on California's farmers, ranchers, and associated businesses, (3) have severe negative impacts on the environment, or (4) adversely affect the supply of agricultural products to the consumer.

6575 - MARKETING; COMMODITIES AND AGRICULTURAL SERVICES

California agriculture produces over 400 different crops, which enter state, national, and international commerce. The objectives of this program are to assure orderly domestic and international marketing of safe and quality agricultural commodities, promote consumer protection, increase food access, ensure fair pricing practices, oversee industry-supported grading services, and maintain standards of measurement which provide a basis of value comparison, fair competition in the marketplace, and establish quality standards for conventional and alternative fuels and automotive products.

This program also provides licenses to eligible California cannabis cultivators and maintains a statewide cannabis tracking system. The cannabis program is proposed to be consolidated with other cannabis licensing programs under a new Department of Cannabis Control beginning 2021-22.

Additionally, this program provides support to governmental agencies that work to protect the nation's food supply and the environment by monitoring for chemical contaminants.

6580 - ASSISTANCE TO FAIRS AND COUNTY AGRICULTURAL ACTIVITIES

This program provides fiscal and policy oversight to the network of California fairs.

The State has a network of 79 fairs including county fairs, citrus fruit fairs, District Agricultural Associations and the California State Fair (an independent state agency). State oversight of these local fairs includes attendance of board meetings and periodic financial reviews and audits.

6590 - GENERAL AGRICULTURAL ACTIVITIES

This program provides fiscal and policy oversight for federal grants that promote California agriculture, and for CDFA Greenhouse Gas Reduction Program activities that are designed to reduce greenhouse gas emissions in agriculture.

In addition, this program serves as the central point of contact for logistical coordination of all departmental resources, provides

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

8570 Department of Food and Agriculture - Continued

industry and agency coordination on environmental issues affecting agriculture, and provides centralized communications to California's agricultural industry, including County Agricultural Commissioners and the statewide fairgrounds.

This program also partially reimburses County Agricultural Commissioners' Offices for carrying out agricultural programs authorized by the Food and Agricultural Code under the supervision of CDFA.

9900 - EXECUTIVE, MANAGEMENT AND ADMINISTRATIVE SERVICES

Executive and Management Services include the executive leadership of the Secretary's Office. The Secretary's Office sets priorities and policies to protect, support, and promote agriculture in the State of California, and helps to protect the health and welfare of the public and the environment.

Administrative Services provides centralized administrative support to the Department through fiscal operations, employee-employer relations, personnel management, employee development, and general business services.

INFRASTRUCTURE OVERVIEW

The California Department of Food and Agriculture's (CDFA) facilities support its operations serving the citizens of California by promoting and protecting a safe and healthy food supply and enhancing local and global agricultural trade through efficient management, innovation, and sound science, with a commitment to environmental stewardship. These facilities are in various locations in Arizona, Hawaii, and throughout California. The CDFA rents or owns approximately 710,000 square feet of facilities, including 41 field offices, 11 laboratories, 16 border protection stations, 9 employee residences, and a headquarters in Sacramento.

8620 Fair Political Practices Commission

The Fair Political Practices Commission has primary responsibility for the impartial administration, implementation, and enforcement of the Political Reform Act of 1974, as amended by the voters and Legislature. The purpose of the Act is to restore confidence in governmental processes. The major objectives of the Commission are to:

- Provide education about the Act and its requirements to the public and the regulated community including public officials, candidates, and lobbyists, and assist with compliance.
- Ensure that election campaign contribution and expenditure data is fully and accurately disclosed so that the voters may be fully informed.
- Enforce the provisions of the Act and regulations fairly and with due process.
- Regulate the activities of lobbyists and disclose their finances.
- Provide for the disclosure of assets and income of public officials, which may affect their official actions, to avoid conflicts of interest or appearances of impropriety.

8640 Political Reform Act of 1974

This budget identifies the amounts required to be appropriated by the Legislature to the Fair Political Practices Commission to carry out its duties under the Act, the amounts to be appropriated to other state agencies to carry out their duties under the Act, and, for informational purposes, the continuing appropriation made by the Act to the Commission, adjusted for any cost-of-living change.

The Political Reform Act detail for each affected agency will be found under respective program budgets as identified in the 3-Year Expenditures and Positions table.

8660 Public Utilities Commission

The California Public Utilities Commission (PUC) regulates critical and essential services such as privately-owned telecommunications, electric—including utility wildfire safety—natural gas, and water companies, in addition to overseeing railroad/rail transit and transportation companies. The PUC is the only agency in the state charged with protecting private utility consumers. As such, the PUC regulates services and utilities, protects consumers, safeguards the environment, and assures Californians' access to safe and reliable utility infrastructure and services.

MAJOR PROGRAM CHANGES

Broadband—The Budget includes \$1.072 billion of American Rescue Plan Act funds and \$50 million General Fund in 2021-22 for the Public Utilities Commission as part of a \$6 billion package to address broadband infrastructure, access and affordability. This includes funding to support last-mile infrastructure and technical assistance through the California Advanced Services Fund, and a new Loan Loss Reserve Fund to support revenue bonds issued by local governments and non-profits to create new municipal fiber networks.

PROGRAM DESCRIPTIONS

6680 - REGULATION OF UTILITIES

Californians spend more than \$50 billion annually for services from industries regulated by the PUC. This includes six electricity utilities, 1,012 telecommunications carriers, 120 water and sewer utilities, five natural gas utilities with approximately 10.8 million customers, four gas facility owners, and more than 3,155 small mobile home park and propane operators.

The PUC oversees the safety of electric, communications, natural gas, and propane gas utility systems. Safety functions include both backward-looking investigations and analysis of safety incidents and utility performance, and forward-looking risk analytics to mitigate emerging threats and identify necessary regulatory rule reform. The PUC performs operation and

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

8660 Public Utilities Commission - Continued

maintenance audits, outage inspections, mitigation reviews, and investigations of incidents at electric generation facilities and coordinates closely with state public safety agencies to further resilience initiatives. The PUC's safety oversight includes enforcing public utility wildfire safety and Public Safety Power Shutoffs (PSPS) violations. It functions as the lead investigator for utility incidents relating to wildfire events and recommends policy to strengthen PSPS guidelines. In addition to the PUC opening formal investigations, the PUC imposes fines for natural gas, electric infrastructure, and wildfire safety-related violations.

The PUC conducts reviews of utility operations every four years to determine just and reasonable rates for energy services. The PUC provides guidelines for investor-owned utilities—and to a lesser extent, as directed by statute, an increasing number of Community Choice Aggregators, Energy Service Providers, and Core Transport Agents—to follow when purchasing electricity and natural gas on behalf of their customers to ensure that sufficient amounts of electricity are procured when and where needed in the state.

Environmental protection and the impact of climate change are critical factors in PUC regulation. The PUC is charged with implementing and overseeing key components of Chapter 547, Statutes of 2015 (SB 350); Chapter 312, Statutes of 2018 (SB 100); and other climate change legislation, including promoting ratepayer-funded energy efficiency programs, Integrated Resource Planning, the state's mandated renewable energy programs, programs for disadvantaged communities, electric vehicle programs, and other clean energy programs.

The PUC oversees programs and regulations to promote both natural gas and electricity reliability and resilience.

The PUC establishes requirements for energy programs for low-income ratepayers, including programs providing rate discounts, financial assistance with energy bills, and the Energy Savings Assistance Program, which provides no-cost weatherization services to customers who meet low-income eligibility criteria.

The PUC conducts and manages environmental reviews pursuant to the California Environmental Quality Act for transmission, telecommunications, and other infrastructure projects.

The PUC develops and implements policies for the rapidly changing communications and broadband markets, including monitoring competitive markets for proper operation, enforcing carrier service standards for telecommunication services, regulating rural telecommunication rates, protecting consumers against carrier abuses and fraud by applying licensing requirements and rules for offering and terminating telecommunication services, and managing efficient deployment of area codes and telephone numbers.

The PUC is responsible for ensuring that California's investor-owned water utilities deliver clean, safe, and reliable water to their customers at reasonable rates. The PUC's water utility work includes investigating water and sewer service quality, promoting water conservation and metering, improving low-income programs, analyzing and processing rate change requests, and tracking and certifying compliance with PUC requirements.

The Public Advisor's Office provides procedural information, advice, and assistance to individuals and groups interested in participating in PUC proceedings and advises the Commission on procedural matters related to public participation in proceedings.

The Consumer Affairs Branch (CAB) responds to questions regarding utility service and bills and assists consumers who have unresolved disputes with regulated utilities through an informal process. CAB also provides data on the consumer protection issues it handles to stakeholders and decision makers to inform policy making. A Supplier Diversity program promotes and monitors supplier diversity in procurement by utilities and oversees a certification clearinghouse.

6685 - UNIVERSAL SERVICE TELECOMMUNICATIONS PROGRAMS

The PUC oversees telecommunication-based universal service programs (Universal Lifeline Telephone Service Trust Fund, California Teleconnect Fund, Deaf and Disabled Telecommunications Program, California Advanced Services Fund, and two California High Cost Funds), all of which provide needed services to consumers and communities. The objectives of these "universal service" programs include: (1) ensuring basic telephone service is available to all Californians; (2) improving access to broadband technology to bridge the digital divide; and (3) ensuring consumers have access to sufficient information to make informed choices about basic service and universal lifeline telephone services.

The California LifeLine Program provides discounted basic residential wireless and wireline telephone service to qualified low-income households. The California Teleconnect Fund Program provides discounted telecommunication services to qualifying schools, libraries, hospitals, and community-based organizations. The Deaf and Disabled Telecommunications Program mainly provides equipment and telephone access services to people with hearing and other disabilities. The California Advanced Services Fund Program mainly encourages the deployment of broadband infrastructure in unserved and underserved rural and urban areas of California. The California High Cost Fund Programs provide subsidies to carriers obligated to provide telephone service to customers residing in rural and high-cost areas.

6690 - REGULATION OF TRANSPORTATION

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

8660 Public Utilities Commission - Continued

The PUC oversees the safety of railroads, rail transit systems, rail crossings, and other forms of motor conveyance in California. All railroads, seven major rail transit agencies, six smaller transit systems, and more than 13,500 public and private crossings are subject to PUC regulation and inspection. For traditional heavy rail, the PUC's specially trained and federally-certified inspectors inspect all tracks (annually), all train equipment and facilities (thrice annually), and all signals and appurtenances; investigate all rail accidents resulting in loss of life and property damage; and ensure safe transport of hazardous materials by rail.

For rail transit systems, PUC inspectors and engineers conduct safety inspections of track, vehicles, signals and train control, and operations, as well as overall agency triennial safety audits. The PUC also has exclusive authority to approve or disapprove all highway-rail crossings of railroad or rail transit tracks, as well as crossing safety treatments deployed at each crossing. Additionally, the PUC jointly (with Caltrans) administers the state's annual allocation of federal funds for crossing hazard elimination projects and the state's grade separation program, which assists localities with the high cost of grade-separating highway/rail crossings.

The transportation program also oversees passenger carriers, including privately-owned for-hire passenger transportation companies (e.g., limousines, airport shuttles, transportation network companies, and charter and scheduled bus operators) and privately-owned water ferries. The program regulates rates and services, issues certificates and other licenses, enforces safety standards and insurance requirements, and protects consumers from for-hire passenger carriers operating illegally.

6695 - PUBLIC ADVOCATE'S OFFICE

The mandate and function of the Public Advocate's Office is defined in Public Utilities Code Section 309.5. The Public Advocate's Office is a statutorily-defined state entity charged with representing and advocating on behalf of public utility customers and subscribers in all significant proceedings within the PUC's jurisdiction.

Chapter 856, Statutes of 1996 (SB 960), codified the Public Advocate's Office with a director appointed by and serving at the pleasure of the Governor and charged the Public Advocate's Office with representing ratepayer interests in PUC proceedings. Chapter 1005, Statutes of 1999 (AB 1658), directed funds from the Public Utilities Commission Utilities Reimbursement Account to be transferred in the annual budget act to the Public Utilities Commission Public Advocate's Office Account. The law further required that "funds in the Public Utilities Commission Public Advocate's Office Account shall be utilized exclusively by the division in the performance of its duties as determined by the director" of the Public Advocates Office.

Chapter 440, Statutes of 2001 (SB 201), removed the limitation that the Public Advocate's Office only represent ratepayers in PUC proceedings. SB 201 extended the Public Advocate's Office representation to other venues such as, but not limited to, the Energy Commission, Air Resources Board, California Independent System Operator, and legislative hearings.

8780 Milton Marks "Little Hoover" Commission on California State Governmental Organization and Economy

The Milton Marks "Little Hoover" Commission on California State Government Organization and Economy (Commission) is the state's only independent and citizen-based oversight mechanism. It conducts four to five comprehensive reviews of executive branch programs, departments, and agencies each year and recommends ways to improve performance by increasing efficiency and effectiveness with existing resources. The Commission is statutorily responsible for analyzing and making recommendations to the Legislature on all Governor reorganization plans.

The Commission is composed of two members of the Senate, two members of the Assembly, and nine unpaid citizen members - five appointed by the Governor and four appointed by the Legislature.

Because of the Commission's independence, the Legislature charged it with oversight of the California State Auditor, including contracting with an independent auditor for annually examining the State Audit Fund.

8820 Commission on the Status of Women and Girls

The Commission on the Status of Women and Girls works in a culturally inclusive manner to promote equality and justice for all women and girls by advocating on their behalf with the Governor, the Legislature and other public policymakers, and by educating the public in the areas of economic equity, including equal pay for women, educational equity, access to health care including reproductive choice, violence against women and other key issue areas identified by the Commission as significantly affecting women and girls. The 17 member Commission includes three State Senators, three Assemblymembers, the State Labor Commissioner, and ten appointed public members (seven by the Governor, one by the Superintendent of Public Instruction, one by the Senate Committee on Rules and one by the Assembly Speaker).

PROGRAM DESCRIPTIONS

6730 - ADMINISTRATION, LEGISLATION, RESEARCH, AND INFORMATION

The Commission implements its mandate by identifying policies that need legislative or executive action; maintaining and distributing information to the public on California programs and policies designed to impact the status of women and girls; developing and maintaining a liaison with other government agencies and advisory bodies providing technical and consultative assistance to government, non-profit and for-profit entities seeking to assist women. The Commission's priority issues include, but are not limited to, examining any laws, practices, or conditions concerning or affecting women and girls which impose special limitations or burdens upon them or upon society, or which limit or tend to limit opportunities available to women and girls generally and specifically as it relates to gender equity in the media, educational needs of women and girls, gender in the workplace and employment, equal pay for women, health and safety of women and girls, and women in the military, women veterans, and military families.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

PROGRAM DESCRIPTIONS

6735 - This program will support the Commission in its charge to:

- Advise the Governor and Legislature on how to respond most effectively to views, needs, and concerns of the state's Asian and Pacific Islander American communities.
- Assist the state in being an effective liaison and conducting outreach with Asian and Pacific Islander American communities through information dissemination about Asian and Pacific Islander American communities concerning public and private programs beneficial to their interests.
- Examine issues of access and cultural language sensitivity by state agencies, departments, and commissions.
- Provide assistance to policymakers and state agencies in identifying Asian and Pacific Islander American communities' needs and issues and develop appropriate responses and programs.
- Educate the public about hate crimes against Asian and Pacific Islander American communities.

8830 California Law Revision Commission

The California Law Revision Commission (Commission) has the responsibility to make a continuing substantive review of California statutory and decisional law, to recommend legislation to make needed reforms, and to make recommendations to the Governor and Legislature for revision of the law on major topics (as assigned by the Legislature) that require detailed study and cannot easily be handled in the ordinary legislative process.

The Commission consists of seven gubernatorial appointees plus one Senator, one Assembly Member, and the Legislative Counsel. The Commission's work is independent, nonpartisan, and objective.

The Commission also administers and provides staff support for the Committee on Revision of the Penal Code. The Committee is responsible for studying the Penal Code and recommending reforms to simplify and rationalize California's criminal law and procedures. The Committee consists of five gubernatorial appointees, one Senator, and one Assembly Member.

MAJOR PROGRAM CHANGES

- California Penal Code Review - The California Penal Code is a complex statutory structure that requires study and recommendations for revision. The Budget provides \$494,000 General Fund to the Legislative Counsel Bureau, which is then provided to the Law Revision Commission as a reimbursement to support ongoing additional staffing for the Committee on Revision of the Penal Code. The Committee shares staffing and administrative support with the Commission.

8855 California State Auditor's Office

The California State Auditor (State Auditor) promotes the effective and efficient administration and management of public funds and programs by providing citizens and government officials nonpartisan, accurate, and objective assessments of state and local governments' financial and operational activities. As the independent auditor, the state law exclusively grants the State Auditor full access to all records of state and local agencies, special districts, school districts, and any publicly-created entity.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

8855 California State Auditor's Office - Continued

The State Auditor conducts performance, financial, or compliance audits that are either mandated by statute or requested by the Legislature through the Joint Legislative Audit Committee (JLAC). Further, the State Auditor is responsible for annually conducting California's statewide Single Audit - a combination of the independent audit of the State's basic financial statements and the independent audit of numerous federal programs administered by California. The Single Audit is federally required as a condition for California to receive billions in federal funds each year. In 2011-12, the Legislature enacted a program that requires the State Auditor to conduct pilot audits of the procurement practices of six trial courts in 2012-13 and thereafter biennially audit the procurement practices of the Administrative Office of the Courts and five judicial branch entities - which includes trial courts, Appellate Courts, and the Habeas Corpus Resource Center.

The State Auditor also identifies statewide issues or specific government entities as being at-high risk for waste, fraud, abuse, and mismanagement or that have major challenges related to efficiency and effectiveness. The State Auditor has the authority to conduct evaluations of those issues and entities identified as being high risk. Similar to the state high-risk program, Chapter 451, Statutes of 2011 (AB 187), also authorizes the State Auditor, to the extent resources are available, to identify local government agencies - including city, county, or special districts or publicly-created entities - as being at-high risk for the potential of waste, fraud, abuse, or mismanagement or that have major challenges associated with their economy, efficiency, or effectiveness. Further, if approved by the JLAC, the State Auditor can audit these identified local entities.

Additionally, under the California Whistleblower Protection Act, the State Auditor's office has broad authority to perform independent investigations into allegations of improper governmental activities by employees at state agencies and courts. The State Auditor's office administers California's Whistleblower Hotline that enables the public to report allegations of improper acts committed by the courts, state agencies, departments, or employees, as defined by law.

The Voters FIRST Act, approved by voters in November 2008 as Proposition 11, requires the State Auditor to initiate an application process for selecting the members of a 14-member Citizens Redistricting Commission (Commission) every 10 years. The State Auditor develops regulations to implement the application and selection process of the Commission and conducts comprehensive outreach to prospective applicants to serve on the Commission.

8860 Department of Finance

By statute, the Director of Finance serves as the Governor's chief fiscal policy advisor and promotes long-term economic sustainability and responsible resource allocation.

The primary functions of the Department of Finance are to:

- Prepare, explain, and administer the annual financial plan for the state.
- Establish fiscal and accounting policies for all state departments.
- Analyze proposed legislation for fiscal and policy impacts.
- Monitor and audit expenditures by state departments to ensure compliance with the law, approved standards, and policies.
- Analyze the fiscal impact of information technology projects.

PROGRAM DESCRIPTIONS

6770 - STATE BUDGET

To ensure the financial integrity of the state through the planned allocation of state resources, the Department of Finance advises the Governor on the fiscal condition of the state and prepares the annual Governor's Budget. The Governor's Budget contains past year actual expenditures and revenues, current year estimated expenditures and revenues, and proposed

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

8860 Department of Finance - Continued

expenditures and estimated revenues for the next fiscal year. After the budget is enacted, the Department of Finance assists in the administration of the budget. The Department of Finance also conducts performance reviews of state agencies and programs, recommends ways to lower the costs of state government and to better serve the public within existing resources, and provides fiscal analyses of bills introduced in the Legislature and makes recommendations to the Governor. Basic and applied economic and tax research functions support the revenue estimates required for the development of the state financial plan, for the analysis of financial legislation, and the evaluation of economic trends or other fiscal developments which affect the state. Basic and applied demographic research functions provide data to support the workload estimates of state agencies.

6775 - FINANCIAL INFORMATION SYSTEM FOR CALIFORNIA (FI\$Cal) PROJECT SUPPORT

The Department of Finance is one of four partner agencies responsible for the development, implementation, utilization, and maintenance of an integrated statewide financial and administrative information technology system, FI\$Cal. This program includes Department of Finance subject-matter experts assigned to the FI\$Cal Project.

6780 - STATE AUDITS AND EVALUATIONS

The Department of Finance systematically reviews and evaluates state-administered and financed programs. The Office of State Audits and Evaluations assists the Director of Finance in fulfilling the statutory responsibilities for supervision over all matters concerning the financial and business policies of the state by conducting financial audits and by performing critical examinations of state programs and policies including the oversight activities associated with the dissolution of redevelopment agencies.

6785 - STATEWIDE ACCOUNTING POLICIES, CONSULTING AND TRAINING

The Department of Finance is responsible for devising and maintaining a modern and uniform system of statewide accounting. The Fiscal Systems and Consulting Unit sets statewide fiscal and accounting policies and procedures. The unit provides fiscal and accounting training, advice, and consulting services to departments to ensure that the state's assets are protected, and that accurate and timely financial information is maintained. The Department of Finance participates in the development of statewide financial systems.

8880 Financial Information System for California

The Department of FI\$Cal operates the statewide financial system to enable California to perform budgeting, accounting, procurement and cash management functions transparently and efficiently. The Department of FI\$Cal is responsible for supporting the Financial Information System for California (FI\$Cal) Project, including supporting the system's customers and stakeholders.

The FI\$Cal Project is a partnership of four control agencies: the Department of Finance, the State Controller's Office, the State Treasurer's Office, and the Department of General Services. FI\$Cal provides the state with a single integrated financial management system that encompasses budgeting, accounting, procurement, cash management, and financial management and reporting. FI\$Cal, through the adoption of best business practices, reengineers business processes; improves efficiency; enhances decision making and resource management; and provides reliable, accessible, and timely statewide financial information allowing the state to be more transparent. FI\$Cal further enables transparency through its Open FI\$Cal website, which was implemented in 2018 pursuant to Government Code section 11862. The website will continue to expand providing the public with access to a growing number of the state's non-confidential expenditures.

PROGRAM DESCRIPTIONS

6890 - STATEWIDE SYSTEMS DEVELOPMENT

This program is responsible for the development, implementation, utilization, and maintenance of FI\$Cal. FI\$Cal replaces existing legacy financial systems and significantly improve California's financial management and administration processes. This program is comprised of a statewide multi-disciplinary team of staff working collaboratively to implement FI\$Cal. The Department of FI\$Cal is organized into the following four divisions:

- Administrative Services Division
- Business Operation and Solutions Division

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

8885 Commission on State Mandates

The Commission on State Mandates timely renders sound, quasi-judicial decisions, in compliance with Article XIII B, Section 6 of the California Constitution, resolving disputes regarding reimbursement for state-mandated local programs and relieving unnecessary congestion of the courts. Its mission is to fairly and impartially hear and determine matters filed by state and local government; resolve complex legal questions in a deliberative and timely manner; and produce clear, well-reasoned, and lawful decisions.

The Commission is a quasi-judicial body consisting of the Director of Finance, the State Controller, the State Treasurer, the Director of the Office of Planning and Research, a public member with experience in public finance, and two members from the categories of city council member, county supervisor, or school district governing board member, appointed by the Governor and approved by the Senate.

PROGRAM DESCRIPTIONS

6900 - ADMINISTRATION

The Commission's statutory responsibilities are to hear and decide:

- Test claims of local agencies and school districts that allege the existence of reimbursable state-mandated programs; and if a test claim is approved, adopt parameters and guidelines for claiming reimbursement and prepare a statewide cost estimate.
- Claims alleging that the State Controller's Office has incorrectly reduced payments to local agencies and school districts.
- Requests for mandate redeterminations that allege the state's liability for a mandate has been modified based on a subsequent change in law.
- Requests to review the claiming instructions issued by the State Controller.
- Requests to determine whether a mandated program, for which appropriations have been made by the Legislature in any three consecutive years, should be included in the State Mandates Apportionment System.
- Existence of significant financial distress for applicant counties seeking to reduce their General Assistance Aid payments.

8940 Military Department

The Military Department is responsible for the command, leadership and management of the California National Guard, Youth and Community Programs, State Guard and the Naval Militia. The California Military Department, under proper authority, organizes, resources, and trains forces with unique capabilities to serve the community, state, and nation. The purpose of the California National Guard is to provide mission ready forces to the federal government as directed by the President, emergency public safety support to civil authorities as directed by the Governor, and support to our member's families and to the community. With an authorized strength of 19,000, the Army National Guard and Air National Guard are organized, manned, and funded in accordance with federal Departments of the Army and Air Force regulatory guidance.

The Military Department Youth and Community Program serves California communities and families by delivering national level, high quality educational support programs, in partnership with the educational community, within a military, academic structured environment. In addition to the funding that flows through the State Treasury, the Military Department also receives federal funding directly from the Department of Defense. A special display titled "Other Federal Funds" shows the funding received from this source.

Because the Military Department's programs drive a need for infrastructure investment, the Department has a capital outlay program to support this need. For the specifics on the Department's capital outlay program see "Infrastructure Overview."

MAJOR PROGRAM CHANGES

- Emergency Preparedness and Disaster Response — The Budget includes \$2.5 million ongoing General Fund to address the increased magnitude, frequency, and complexity of natural disasters. In recent years, the California Military Department has changed from providing a periodic response force to sustaining year-round support for disaster prevention, response, and recovery. These resources will enhance current logistical, administrative, and fiscal support operations, as well as future planning and training to prepare for contingencies as the nature of disasters and emergencies evolve.

PROGRAM DESCRIPTIONS

6911 - NATIONAL GUARD

The Military Department will maximize the readiness of the California National Guard's Soldiers and Airmen, along with our State Guard. Army National Guard support plans include a community-based land force, logistics, communications, law enforcement and other specialized support. Air National Guard support plans include rescue, air defense, airlift and unmanned aerial systems, space, intelligence, communications, and other specialized services. The Office of the Adjutant General element governs the joint activities and performance of the Military Department in areas such as personnel and fiscal resource management, judicial affairs, internal controls, facility management, and information technology. The Military Civil Support element provides liaison and coordination with federal, state, and local agencies so that mutual understanding and unity of purpose is assured during an emergency. The objectives of this element are to plan, prepare, and train for the deployment of Military Department personnel and equipment to support civil authority when called to state service by the Governor due to domestic emergency or natural disaster and to provide the state, county, city, and other public agencies with the coordination necessary to ensure a timely, organized response. The State Guard is a volunteer component of the Military Department whose mission is to provide a trained, disciplined and ready force during training, preparation for mobilization, demobilization, and provision of support to civil authorities during periods of state emergencies. The federal government provides virtually all supplies, equipment, transportation, subsistence, and support services necessary for training, deployment, and commitment of the National Guard. Training is conducted in accordance with the Department of the Army and Air Force Regulations and Training Guidance.

6912 - YOUTH AND COMMUNITY PROGRAMS

The Military Department manages and maintains partnerships with the following ten programs while serving more than 13,000 youth annually: California Cadet Corps, Oakland Military Institute, California Military Institute, Porterville Military Academy, Grizzly Youth Academy, Sunburst Youth Academy, Discovery ChalleNGe Academy, California JobsChallenge, STARBASE Academy Sacramento and STARBASE Academy Los Alamitos. The California Cadet Corps, founded in 1911 by the California Legislature and then- Adjutant General BG Edwin Forbes, is a school-based, applied leadership program that is designed to provide maximum growth and leadership opportunities for cadets from elementary through high school levels. It provides leadership opportunities for cadets by allowing them to conduct training for junior cadets, perform as leaders in their cadet military units, and by demonstrating proper behavior and citizenship at their schools and in their communities. As part of their training, cadets provide assistance and support to the school and community. The Oakland Military Institute, California Military Institute, and Porterville Military Academy develops leaders of character by providing rigorous programs to promote excellence in academics, leadership, citizenship, athletics, and physical fitness/wellbeing. Additionally, the programs instill the 10 Cadet Corps values of loyalty, education, ambition, duty, enthusiasm, respect, service, health, integrity, and personal courage. Using a military framework, these programs graduate cadets who are capable of meeting the admissions requirements for college and who are prepared for their roles as future leaders. The mission of the National Guard Youth ChalleNGe Program is to intervene in and reclaim the lives of 16-18 year old high school dropouts. Graduates leave the program with the values, life skills, education, and self-discipline necessary to succeed as productive citizens. California Jobs ChalleNGe Located at Los Alamitos, CA is a continuation program to provide vocational skills to California ChalleNGe graduates. The overall mission provides

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

8940 Military Department - Continued

post-secondary Career Technical Education (CTE) training to place graduates into viable jobs. The goal of the Department of Defense STARBASE program is to motivate elementary school students, primarily 5th graders, to explore Science, Technology, Engineering and Math (STEM) as they continue their education. The curriculum is designed to increase student involvement and interest in STEM, enhance their understanding of the role that STEM literacy plays in their lives, strengthen potential for future careers, and make the pursuit of STEM activities more attractive and accessible. While attending STARBASE students interact with military personnel to explore careers and observe STEM applications in the "real world." These ten youth programs are financed with federal, state and local funds. The California National Guard is involved in youth programs because political and community leaders at the federal, state, and local levels recognize that the National Guard brings structure, discipline, and effective leadership training methods to the educational setting.

[†] Fiscal year 2019-20 budget information reflects the latest available estimates for this department and/or fund(s). Changes resulting from the final reconciliation of the 2019-20 ending fund balance will be reflected as a prior year adjustment in the 2022-23 Governor's Budget publication.

INFRASTRUCTURE OVERVIEW

The Army National Guard statewide facilities footprint includes 95 active armories comprised over 2 million square footage. In addition, the Military Department possesses 4 aviation centers, 23 field maintenance shops, 2 combined support maintenance shops, and 2 maneuver area training equipment sites. The total real property assets of the Military Department encompass an area of 7.8 million square feet. The facilities are used to house and train the California National Guard and provide emergency public safety support. The Military Department also operates three major training facilities comprised of a total combined square footage of 3.4 million. These facilities consist of troop lodging, administration, warehouse, maintenance, firing ranges, and maneuver training areas. Additionally, the Military Department's footprint includes 45 active buildings of 229,000 square feet for the Department's Youth and Community Programs.

8955 Department of Veterans Affairs

The California Department of Veterans Affairs (CalVet) honors and serves California's veterans and their families by ensuring our veterans have access to the benefits they have earned to enable them to meet their needs. The CalVet promotes and delivers innovative services through efficient, cost-effective programs and collaboration with key stakeholders and partners.

More specifically, the CalVet:

- Communicates with California's veterans and their families at all pivotal moments throughout their post-military lives to educate them and connect them to their federal, state, and local benefits.
- Provides California veterans and their families with direct representation in presenting their claims and appeals for benefits before the US Department of Veterans Affairs and the federal Board of Veteran Appeals.
- Provides California veterans the opportunity to achieve the American dream of homeownership through direct low-cost loans to acquire farms and homes.
- Provides the state's aged or disabled veterans with premier rehabilitative, residential, and medical care and services in a home-like environment at the California Veterans Homes.

8955 Department of Veterans Affairs - Continued

This mission is based upon the philosophy that benefit programs for veterans fulfill necessary, proper, and valid public purposes; promote patriotism; recognize and reward sacrifice and service to our country; and provide needed readjustment assistance to returning veterans and their families, whose lives were interrupted when they responded to our country's call to military service.

Because the CalVet's programs drive a need for infrastructure investment, the Department has a capital outlay program to support this need. For the specifics on the Department's capital outlay program see "Infrastructure Overview."

MAJOR PROGRAM CHANGES

- Supportive Services for Formerly Homeless Veterans—The Budget includes \$25 million one-time General Fund in 2021-22 for the Department of Veterans Affairs to administer a competitive grant program to support aging veterans and veterans with disabilities who have experienced chronic homelessness. This program will provide a higher level of on-site supportive services, such as in-home support to help with habitability, peer specialists to encourage veterans to engage in mental health care, and geriatric social workers to identify behavioral issues related to early onset dementia or similar cognitive issues.
- West Los Angeles Medical Center Housing for Homeless Veterans—The Budget includes \$20 million one-time General Fund in 2021-22 for the Department of Veterans Affairs to provide resources to the West Los Angeles Veterans Collective to assist in building affordable housing units and related infrastructure as part of the permanent supportive housing community on the West Los Angeles Veterans Administration Medical Center campus.
- County Veteran Service Officers—The Budget includes \$5.4 million ongoing General Fund to provide additional funding to County Veteran Service Officers (CVSO). This brings the total amount of state funding available to CVSOs to \$11 million annually.

PROGRAM DESCRIPTIONS

6990 - FARM AND HOME LOANS TO VETERANS

The CalVet Home Loan Program offers veterans, meeting specified requirements, loans to purchase, construct, or rehabilitate new or existing single family dwellings, which include condominiums, units in shared equity cooperative housing developments, mobile homes, and farms. The CalVet also offers Home Improvement Loans to active CalVet customers or homeowners who own their homes free of debt.

6995 - VETERANS CLAIMS AND RIGHTS

The Veteran Services Division provides service and assistance to California's veterans, dependents, and survivors. Programs administered consist of: Veterans Dependents Educational Assistance Program, County Veterans Service Office Program, Veterans Outreach Program, California Transition Assistance Program, Veterans Housing and Homelessness Prevention program, Medi-Cal Cost Avoidance Program, Veterans Claims and Appeals Representation, State Veteran Cemeteries, California State Approving Agency for Veterans Education, Disabled Veteran Business Enterprise Program, Veterans Mental Health Program including Veteran Justice Outreach and Incarcerated Veterans, Homeless Veterans Outreach Program, Veterans Driver License Program, and the Veterans License Plate Program. California, with approximately 1.6 million veterans, represents 8.4 percent of the nation's total veteran population.

7000 - CARE OF SICK AND DISABLED VETERANS

CalVet operates eight licensed long-term care facilities which provide affordable, quality services to eligible veterans and spouses. The Veterans Homes also provide therapeutic care and rehabilitative services to help sustain activities of daily living and independent function. The primary services provided by these Veterans Homes are:

- The Veterans Home of California, Barstow offers skilled nursing, intermediate, and domiciliary care.
- The Veterans Home of California, Chula Vista offers skilled nursing, assisted living, and domiciliary care.
- The Veterans Home of California, Fresno offers skilled nursing (including memory care) and assisted living care.
- The Veterans Home of California, Greater Los Angeles and Ventura County (GLAVC), includes three main campuses: West Los Angeles (WLA), Lancaster, and Ventura. All three offer assisted living care. The WLA campus also offers skilled nursing care (including memory care).
- The Veterans Home of California, Redding offers skilled nursing (including memory care) and assisted living care.
- The Veterans Home of California, Yountville is the largest veterans home in the United States. It offers all four levels of care: skilled nursing (including memory care), intermediate, assisted living, and domiciliary care.

7005 - VETERANS MEMORIALS

This program supports the Veterans Registry, which is part of the California Veterans Memorial. The provided contributions help to defray the costs of data entry and system management for the Registry and the reasonable costs that are incurred by the CalVet for administering the fund.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

8955 Department of Veterans Affairs - Continued

9900 - GENERAL ADMINISTRATION

Administration provides CalVet's full range of programs with administrative services support in the areas of legislation, communications, legal, women veterans issues, minority veterans issues, information services, budgeting, accounting, personnel, business services, program review and audits, corporate compliance, regulations, and emergency coordination. These costs are distributed to the major programs.

INFRASTRUCTURE OVERVIEW

The Department of Veterans Affairs (CalVet) facilities include eight veteran's homes, three state veterans' cemeteries, and a headquarters office building. The eight veteran's homes are located in Yountville, Barstow, Chula Vista, West Los Angeles, Lancaster, Ventura, Redding, and Fresno on 766 acres of land, with 2.4 million gross square feet of building space. Additionally, CalVet will construct a new 285,000 square foot Skill Nursing Facility in Yountville, California and will expand

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

8955 Department of Veterans Affairs - Continued

columbarium capacity at the Northern California Veterans Cemetery in Igo, California. Veteran's homes provide domiciliary housing for the state's veterans and are also licensed to provide three levels of care, ranging from assisted living to skilled nursing. CalVet also operates three cemeteries that are located in Igo, near Redding, Yountville, and Seaside and contain a total of approximately 24,000 gravesites on 47 developed acres.

9100 Tax Relief

This budget provides funding for cities and counties to help defray the loss of revenue as a result of the Homeowners' Property Tax Relief Program, a program that provides California homeowners assistance through a \$7,000 exemption from property tax, and the Open Space Subventions Program, a program that provides tax relief to individuals who agreed to hold their land as open space under the Williamson Act of 1965. This budget also receives loan repayments from people participating in the Senior Citizens and Disabled Citizens Property Tax Postponement Program.

PROGRAM DESCRIPTIONS

7500 - HOMEOWNERS' PROPERTY TAX RELIEF

In order to reduce California taxpayers' property tax burden, the California Constitution exempts homeowners from paying property taxes on the first \$7,000 of the assessed value of their principal place of residence. The Constitution requires the state to reimburse local governments for revenues lost due to the homeowners' exemption. This Program also receives repayments from persons participating in the Senior Citizens and Disabled Citizens Property Tax Postponement Program, whereby the state makes property tax payments for qualified homeowners in exchange for the participants making repayment when they relinquish ownership.

7505 - SUBVENTIONS FOR OPEN SPACE

The Williamson Act permits cities and counties to enter into contracts with landowners to limit the use of land to agricultural, scenic, and open space purposes. Article XIII, section 8, of the California Constitution permits land under such restrictions to be assessed at other than market value based on its limited uses. The state provides reimbursements to cities and counties to partially defray the loss of property tax revenues. The Department of Conservation administers this program.

9285 Trial Court Security - Court Construction

This budget establishes a process and mechanism for counties to request funding if court construction projects, occupied on or after October 9, 2011, modify or create building features that increase overall trial court security costs. Trial Court Security was realigned from the state to counties through 2011 Public Safety Realignment. Proposition 30, passed by the voters in 2012, requires the state to provide annual funding for newly required activities that have an overall effect of increasing county costs in this realigned program.

9350 Shared Revenues

The purpose of the Shared Revenue program is to help maintain the fiscal strength of various governmental entities throughout the state. This is accomplished by the apportionment of special monies collected by the state to local governments on the basis of statutory formulas.

3-YEAR EXPENDITURES AND POSITIONS

PROGRAM DESCRIPTIONS**7620 - GENERAL FUND APPORTIONMENTS**

Tideland Revenues-This program displays the allocation of revenues received from tide and submerged lands for which the state has reserved the rights to the mineral deposits.

7625 - SPECIAL FUND APPORTIONMENTS

Geothermal Resources Development-Forty percent of all monies received by the federal government for geothermal leases is paid to each county based on its proportionate share of geothermal lease sale property.

Motor Vehicle Fuel Taxes-This program shows the apportionment of fuel taxes to cities and counties.

Motor Vehicle License Fees-This program shows the apportionment of vehicle license fees to cities and counties.

Off-Highway License Fees-This program shows the apportionment of off-highway license fees to cities and counties.

Timber Yield Tax-This program allocates taxes collected on the harvest value of timber to the counties where the timber was harvested.

Road Repair and Accountability Act Local Road Maintenance Apportionment-This program allocates revenues created by the Road Repair and Accountability Act to cities and counties to improve local streets and roads.

Prepaid Mobile Telephony Program- This program shows the apportionment of the Prepaid Mobile Telephony Act to cities and counties.

7630 - FEDERAL FUND APPORTIONMENTS

Federal Receipts from Flood Control Lands-Monies received by the federal government for lands acquired for flood protection purposes are prorated to the counties in which the lands are located.

Federal Receipts from Forest Reserves-Monies received by the federal government for the state's share of receipts from forest reserves are prorated to counties where the lands are located.

Federal Receipts from Grazing Land Fees-Monies received by the federal government for the state's share of receipts from grazing land are prorated to counties where the lands are located.

Federal Receipts from Potash Leases-Monies received by the federal government for the state's share of potash leases are distributed to school districts.

¹Totals reflect Build America Bond subsidy.

9600 Debt Service General Obligation Bonds and Commercial Paper - Continued**General Obligation Bond Expenditures**

²General Obligation bond expenditures include repayment of debt service for various departments funded by a series of bonds; however, the state may assign each maturity of the bonds to one or more departments, rather than having all of the debt allocated to a department mature proportionally across the entire maturity schedule. Regardless of the debt service allocated among departments, the aggregate debt service obligation of the state remains the same.

³Includes higher education debt service paid through the University of California and California State University main budget items.

9610 Lease-Revenue Notes and Bonds

This budget is limited to those long-term lease arrangements, generally resulting in a capital acquisition or improvement, for which a bond has been issued as the underlying source of funds. This budget reflects expenditures for the appropriations necessary for the lease payments that are contained in the support budgets of the affected departments or agencies and may vary from this display because of reimbursements from bond surplus accounts. This display is intended to meet the needs of the financial community for summary information relating to lease-revenue debt.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

9612 Enhanced Tobacco Settlement Asset-Backed Bonds

In accordance with Government Code section 63049.1, the Enhanced Tobacco Settlement Asset-Backed Bonds item appropriates \$1,000 and authorizes the Director of Finance to allocate up to \$200 million General Fund if tobacco settlement revenues are insufficient to pay the costs of debt service and operating expenses. While this authority was necessary to sell the Tobacco Settlement Revenue backed bonds, it is not anticipated that the General Fund will be required to make any payments.

9620 Cash Management and Budgetary Loans

The Cash Management and Budgetary Loans budget tracks General Fund expenditures for interest costs related to cash flow and budgetary borrowing. Internal and external cash flow borrowing can be used to overcome normal cash flow imbalances during the fiscal year. Because receipts and disbursements occur unevenly throughout the fiscal year, the General Fund may need to borrow even though its budget is balanced. Budgetary loans may be used to loan monies from various state funds to the General Fund to help bridge a budget shortfall. These loans are temporary, and do not harm the operations of departmental programs.

PROGRAM DESCRIPTIONS

7720 - CASH MANAGEMENT

Borrowing From Other Funds or Other State/Local Entities

Chapter 312, Statutes of 1907, authorized the transfers to the General Fund from certain specified funds (often referred to as "borrowable" funds) in the State Treasury System whenever the General Fund was exhausted. Those provisions, in slightly modified form, are now contained in Sections 16310 and 16418 of the Government Code. This authorization enables the General Fund to overcome normal cash flow imbalances throughout the fiscal year to a large extent. The use of these funds' money for General Fund cash flow purposes is largely transparent to most of these funds. This mechanism does not interfere with the day-to-day cash needs of the borrowable funds because of the implementation method. Generally, when a fund is designated as borrowable for General Fund cash flow purposes, it merely increases the amount of cash the State Controller's Office is authorized to borrow from the Pooled Money Investment Account (PMIA) when there is a General Fund cash shortage. For most of these funds, actual cash is not transferred out of the funds into the General Fund. The entire cash balances of these funds remain intact and completely available for the funds' purposes.

A State Agency Investment Fund (SAIF) Program was enacted pursuant to Chapter 142, Statutes of 2011 (Senate Bill 79, Government Code section 16330), to increase internal borrowable resources through the receipt of deposits from a state entity that is not required to deposit or invest funds in the PMIA. The minimum deposit or investment per participant is \$500 million and the maximum amount for the SAIF Program for all participants is \$10 billion. There are currently no deposits in this Program.

A Voluntary Investment Program (VIP) was enacted pursuant to Chapter 44, Statutes of 2012 (Senate Bill 1033, Government Code section 16340), for the receipt of voluntary deposits from local entities for the purpose of providing additional liquidity for the state's cash management. The minimum deposit from a local entity is \$200 million and the maximum amount for the VIP from all local entities combined is \$10 billion. No deposits have been made into this Program.

Borrowing From Financial Markets

In addition, the courts have validated temporary external borrowing that meets the "appropriation doctrine." Under this doctrine, an obligation is not considered a debt or liability within the State Constitutional limitation on indebtedness (Section 1 of Article XVI) if an appropriation is made from existing funds or reasonably anticipated funds subject to appropriation. This doctrine was invoked in 1933 and 1936 to uphold the use of registered warrants (IOUs) during the Great Depression and again in 1971 to

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

9620 Cash Management and Budgetary Loans - Continued

validate the State of California Notes provisions of Chapter 223, Statutes of 1971. The Notes provisions were invoked in 1971-72 in lieu of the more costly registered warrant authority used during the Depression and, like registered warrants, required the projected exhaustion of all internal sources of funds before being implemented. The Notes provisions were re-enacted by Chapter 10X, Statutes of 1983, and employed in 1982-83 and 1983-84.

In 1984-85, the state implemented a cash management program pursuant to Chapter 268, Statutes of 1984, which provided the flexibility to borrow from external sources prior to exhausting internal sources. Under this program, the use of external funds results in potential savings to the General Fund, as well as increased revenue to the various special funds from which the General Fund would have borrowed from pursuant to Sections 16310 and 16418 of the Government Code.

External sources of borrowing available to the state include revenue anticipation notes (RANs), revenue anticipation warrants (RAWs), and registered warrants (short-term IOUs). RANs and RAWs are short-term debt obligations issued in anticipation of receiving revenues in the near future.

Additional costs to the cash management program include, but are not limited to, costs to issue and redeem IOUs, and any other program measures necessary to effectively manage cash flow.

Overall Program

Pursuant to Government Code Sections 12020 and 12021, accounts payable and receivable and cash flow statements for the past, current, and budget years are included as Schedule 5 in the Governor's Budget Summary. Neither cash receipts nor disbursements match revenues and expenditures presented elsewhere in this Budget. To reflect cash flow, budget data is converted to cash basis primarily by adjusting for cash collected by an agency but not yet recorded by the Controller and for accruals. Adjustments are also made to reflect statutory changes, anticipated legislative actions, and administrative actions.

The estimated current and budget year cash flows incorporate the latest revenue and expenditure budget measures and assumptions. During difficult cash periods, cash management measures such as intra-year payment deferrals may be used from time-to-time to address low points during the fiscal year.

7725 - BUDGETARY LOANS

The Budget Act authorizes budgetary loans from various funds and accounts to the General Fund. These loans are repaid over multiple fiscal years. Unless otherwise specified in statute, the loans are repaid with interest calculated at the Pooled Money Investment Account rate on the date of transfer.

9625 Interest Payments to the Federal Government

Pursuant to the Cash Management Improvement Act of 1990 (CMIA), the state will incur an interest liability to the federal government. The purpose of CMIA is to ensure greater efficiency, effectiveness, and equity in the exchange of funds between the federal government and the state. The major provisions of CMIA are: (a) federal agencies must make timely fund disbursements and grant awards to the state; (b) the state must minimize the time between the deposit of federal funds in the state account and the payout of the funds for program purposes; (c) the state is entitled to interest from the federal government from the time state funds are paid out for program purposes until federal funds are deposited in the state account; and (d) the federal government is entitled to interest from the state from the time federal funds are deposited in the state account until the funds are paid out for program purposes.

The federal assistance programs impacted by the CMIA are those programs that have \$285 million or more in federal fund expenditures. For the majority of these programs, state departments request federal funds in advance of the warrant (i.e., check) issuance. State departments use this funding technique because the State Constitution requires that the funds be deposited before the warrants are issued.

Interest payments to the federal government are due no later than March 31 each year. The payment will be for the interest liability incurred during the state's prior fiscal year.

9650 Health and Dental Benefits for Annuitants

This program provides funding for health and dental benefit services for retired state employees and their dependents.

The program began on January 1, 1962, with an employer contribution of \$5 per month toward the cost of a basic health plan. Since then, major medical plans, Medicare, and plans supplementing Medicare have been developed. Dental care was added in 1982.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

9650 Health and Dental Benefits for Annuitants - Continued

The 2020-21 employer contribution for health premiums for employees hired by the state on and prior to December 31, 2016, maintains the average 100/90 percent contribution formula established in Government Code Section 22871 for fully vested members. Under this formula, the state averages the premiums of the four health benefit plans with the largest state enrollment in order to calculate the maximum amount the state contributes towards retiree health benefits. The state also contributes 90 percent of this average towards the health benefit costs of each of the retiree's dependents. Vesting schedules and employer contributions may vary by employee bargaining unit contract.

The 2020-21 employer contribution for health premiums for employees hired by the state on and after January 1, 2017, maintains the average 80/80 percent contribution formula established in Government Code Section 22871.3 for fully vested members. Under this formula, the state averages the premiums of the four health benefit plans with the largest state enrollment in order to calculate the maximum amount the state contributes towards retiree health benefits. The state also contributes 80 percent of this average towards the health benefit costs of each of the retiree's dependents. Vesting schedules and employer contributions may vary by employee bargaining unit contract.

The retiree is responsible for paying all health benefit plan costs that exceed the state contribution. Premiums are determined on a calendar-year basis; therefore, the state contribution will vary during the fiscal year. The 2020 monthly contribution maximums are \$767 for a single enrollee, \$1,461 for an enrollee and one dependent, and \$1,868 for an enrollee and two or more dependents. The 2021 monthly contribution maximums are \$798 for a single enrollee, \$1,519 for an enrollee and one dependent, and \$1,937 for an enrollee and two or more dependents. Dental care premiums vary by plan and number of dependents.

Effective July 1, 2012, funding for health benefits for California State University annuitants is displayed in Organization Code 6645 under Higher Education. This funding was previously budgeted within Organization Code 9650.

9658 Budget Stabilization Account

Proposition 2, approved by voters in November 2014, replaced the Proposition 58 (2004) version of the Budget Stabilization Account (BSA) to build a stronger "rainy day" reserve while requiring accelerated debt pay down. Proposition 2 strengthened the reserve by providing more stringent requirements to transfer funds back to the General Fund or suspend deposits to the BSA, and increasing the reserve limit.

Proposition 2 requires a transfer from the General Fund to the BSA by October 1 of each year, as well as true up transfers between the General Fund and the BSA for the two preceding fiscal years. In addition to the transfer to the BSA, a calculated amount is appropriated for supplemental debt payments and other specified long-term liabilities.

LEGAL CITATIONS AND AUTHORITY

PROGRAM AUTHORITY

Section 20 and Section 22, Article XVI of the Constitution of the State of California.
Control Section 35.50, Budget Act.

Item 9658-011-0001, 2016 Budget Act and 2018 Budget Act.

PROGRAM DESCRIPTIONS

7760 - Proposition 2 requires the Legislature, through the 2029-30 fiscal year, to annually set aside in the BSA for a "rainy day" 50 percent of the sum of 1.5 percent of estimated General Fund revenues and the amount of revenue from capital gains over 8 percent of General Fund tax proceeds that is not required to fund Proposition 98, and use the remaining 50 percent to pay down debt. Beginning in 2030-31, 100 percent of the above sum would be deposited in the BSA for a "rainy day," reduced by any amount up to 50 percent that the Legislature appropriates to pay down debt. The maximum balance in the BSA is limited to 10 percent of General Fund proceeds of taxes for the fiscal year. Any amounts in excess of ten percent may only be used for infrastructure needs.

Proposition 2 includes a true up mechanism for the two preceding years.

The Legislature may suspend or reduce the BSA transfer if the Governor declares a budget emergency. Withdrawal of funds from the BSA is limited to half of the fund's balance unless funds in the BSA have been returned to the General Fund for appropriation in the immediately preceding fiscal year.

Proposition 2 also establishes a Proposition 98 reserve whereby spikes in funding will be saved for future years. This will smooth school spending and minimize future cuts. The Proposition 98 reserve does not change the Proposition 98 minimum guarantee calculation. See 9889 - Public School System Stabilization Account for more information on the Proposition 98 reserve.

9670 Equity Claims and Settlements and Judgments

This budget reflects statewide expenditures for all equity claims against the state approved for payment by the California Victim Compensation Board and the Government Claims Program under the Department of General Services, and all settlements and judgments against the state sponsored by the Attorney General's Office. Payment of these claims is provided to claimants through the passage of special legislation.

PROGRAM DESCRIPTIONS

7765 - EQUITY CLAIMS

This program includes all claims approved by the three-member California Victim Compensation Board and the Government Claims Program under the Department of General Services, and referred to the Legislature in the omnibus claims bills for payment. The program provides an equitable procedure for the payment of the following categories of claims:

- Claims for which no appropriation has been made or for which no fund is available, but the settlement of which has been provided for by statute or constitutional provision.
- Claims for which the appropriation made or fund designated is exhausted.
- Claims for which settlement is not otherwise provided for by statute or constitutional provision.

The Government Claims Program was transferred to the Department of General Services from the former California Victim Compensation and Government Claims Board in July 2016. The California Victim Compensation and Government Claims Board became the California Victim Compensation Board.

7770 - SETTLEMENTS AND JUDGMENTS

This program includes claims paid through judgment and settlement bills sponsored by the Department of Justice each year. The claims are either judgments against the state or settlements approved by the Department of Justice pursuant to the authority provided in Government Code Section 948 et seq.

9800 Augmentation for Employee Compensation

This item reflects funding augmentations for state employee compensation. If the Legislature previously appropriated money, through this budget item, to pay for the economic terms of employee compensation in previous fiscal years, the funding for those economic terms is included in departments' budgets. When economic terms require funding not yet appropriated by the Legislature, those funds are included in this budget item.

Additionally, this item sets aside funding for penalties the state may face under the Affordable Care Act (ACA). Beginning in 2015, the state became subject to the Employer Shared Responsibility provision of the ACA. This provision requires large employers to offer health benefits to full-time employees, defined as those who work on average 130 or more hours per month (or 30 hours per week), and their dependent children. Under this provision, the state may be subject to penalties (Part B Penalty), which may include part-time, temporary, and seasonal employees that may have been considered full-time for one or more months, were not offered or did not qualify for health benefits through the state, purchased health coverage from the Health Insurance Marketplace (known as Covered California), and received a premium tax credit or cost sharing reduction.

The ACA also contains reporting requirements, which require the state to track specified ACA-related employee information on a monthly basis to identify the employees who meet health eligibility requirements, document whether benefits were offered, and whether the employee accepted benefits. This data collection is used to report the state's level of ACA compliance to the Internal Revenue Service on an annual basis. The state may be assessed penalties for inaccurate reporting (Internal Revenue Code sections 6721 and 6722).

9840 Augmentation for Contingencies or Emergencies

Each year, the Budget Act includes appropriation items in business unit 9840 to be used to supplement department's appropriations that are insufficient due to unanticipated expenditures or emergency situations. There are three separate appropriations, one for each fund type - General, special, and non-governmental cost funds. These appropriations are allocated to other departments by the Department of Finance based upon the determination of need.

9885 Reserve for Liquidation of Encumbrances

For individual department budgets, encumbrances (commitments for the procurement of goods or services which have not yet been received by the state) are accrued as expenditures by departments at year-end and included in the expenditure totals. This treatment is in accordance with the budgetary/legal basis of accounting and consistent with individual department budgets.

For the purpose of determining the overall General Fund balance, Government Code Section 13307 requires that encumbrances should not be counted as a budgetary expenditure until the delivery of the goods and services. Furthermore, Generally Accepted Accounting Principles (GAAP) require that encumbrances be reflected as a reserve against the General Fund balance and not as an expenditure, as in budgetary/legal basis accounting. Government Code Section 13306 and state policy require compliance with GAAP whenever it is in the best interest of the state. This budget reflects a statewide adjustment

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

9885 Reserve for Liquidation of Encumbrances - Continued

to reduce expenditures on a budgetary/legal basis by the encumbrance amounts to comply with Government Code Section 13307 and GAAP. A reserve of fund balance for encumbrances for this same amount is shown in Summary Schedule 1 for the General Fund.

COMPUTATION OF ENCUMBRANCE ADJUSTMENT

The State Controller's Office accumulated a preliminary estimated General Fund encumbrance total of \$3,175,060,000 from 2019-20 year-end financial statements submitted by state departments. For budgeting purposes, encumbrances are estimated to be at the same level for the 2020-21 and 2021-22 fiscal years and are assumed to be liquidated (paid) within the next fiscal year. The Encumbrance Adjustment Table summarizes the methodology and the calculation for the encumbrance adjustment.

9889 Public School System Stabilization Account

Proposition 2, approved by voters in November 2014, established the Public School System Stabilization Account (PSSSA) as a "rainy day" reserve for K-14 schools.

Proposition 2 requires Proposition 98 General Fund deposits into or withdrawals from the fund each year, as well as two preceding fiscal years, when specific criteria are met. Calculation of a deposit or withdrawal from the PSSSA does not change the Proposition 98 minimum guarantee calculation.

LEGAL CITATIONS AND AUTHORITY

PROGRAM AUTHORITY

Section 21, Article XVI of the Constitution of the State of California.

9900 Statewide General Administrative Expenditures (Pro Rata)

Central service agencies, such as Department of Finance, the State Treasurer, the State Controller, and Legislature, provide budgeting, banking, accounting, auditing, payroll, and other services to all state departments. The Pro Rata process apportions the costs of providing central administrative services to all state departments and funding sources that benefit from the services. Amounts apportioned to special funds for their fair share of central administrative services costs are transferred from the special funds to the General Fund and the Central Service Cost Recovery Fund.

Prior to 2016-17, Pro Rata charges to special funds were normally included in the appropriate departmental budgets. This budget item included Pro Rata costs directly charged to special funds for those cases where appropriate funding was not provided for in departmental budgets. Effective 2016-17, this budget item includes Pro Rata costs charged directly at the fund level, rather than each individual appropriation, pursuant to Government Code section 11274.
